

WHO IS i³?

Filene i³ is a work group of innovative, insightful, and energetic credit union professionals who have not yet reached the CEO level, but are in a position with substantial responsibility.

Every spring, approximately 15 i³ers are chosen based on numerous factors. Some of these factors include:

- Intellectual curiosity
- Passionate about the core values of the credit union system.
- Future CEO
- Experienced
- Quick on their feet

i³ers strive to be transformational leaders in building the future of credit unions and to create new ideas, innovate, and implement for the benefit of the credit union system.

i³ success endures long after the two-year tenure. Many i³ers have future careers as CEOs.

WHAT HAPPENS AFTER i³?

It doesn't just end after 2 years if you don't want it to.

- Many i³ers stay involved with their projects as they move through Filene's alpha lab & impact areas.
- Some become CEOs and join our Filene Research Council.
- Some stay involved through the Cooperative Trust as mentors or project managers of 3ntrust.
- They of course have the option of leaving and never seeing us again.
 - *Very few people take this option.*
- OR we could be lucky enough to have you at Filene.
 - *Denise Gabel, Tansley Stearns and Andrew Downin are all examples.*
